OBJECTIVE

“To secure a teaching role in an esteemed educational institute where I can gain experience by delivering the best I can, as well as learning from the experience of the senior teachers in order to work towards my special interests”

AIMS

- To contribute to an institution by utilizing my clinical, training and educational experience
- I am a motivated person and believe that I can play a significant role in helping students develop the self- understanding and self-reliance that will help them become keen and effective learners ,and enjoy respectful productive relationship with their peers ,teachers and others in their lives
- I am also committed to proactively managing relationships with students, parents and with stakeholders. I would hope to become a trusted and useful colleague to other teachers and to support staff at the dental college and to learn from their experiences.
- I focus on philosophy of valuing each student as an individual and give them as many learning opportunities and experiences as possible, I feel it is important to make learning interesting and creative for every individual.
